PVC Exterior Colour Guide

Dashwood Exterior colours are a high tech coating specifically formulated for PVC with a proven durability in all weather conditions. Available across the entire spectrum of Dashwood's PVC product lines, this colour palette offers many opportunities to customize the appearance of your home.

A full selection of decorative options is also available; grilles in the glass colour matched to the interior and exterior, Casements with exterior mounted simulated divided lites and brickmould along with several glazing options.

This colour guide will help co-ordinate the colour choices for home building items such as fascia and soffits.

For an exact colour sample, please contact your window supplier.
